Become a Pearson VUE® Authorized Test Center.

Validating professional and technical knowledge through computer-based testing is the final step in the training process. IT certifications ascertain job and career readiness, confirm education and support professional advancement. And, because technologies continue to emerge and evolve—today’s test taker may well be tomorrow’s training customer.

You know better than anyone, certifications make a difference in people’s lives. Deliver industry-leading IT certification exams with Pearson VUE and see the difference … for your candidates, your community and for your test center.

Benefits for test takers, benefits for you.

• **Streamlining the experience**  
  From the moment candidates enter your center, you can count on a smooth and reliable process. From automated check-in and exam readiness, through test delivery and results processing; count on Pearson VUE’s proven methods and technology. Every step…every time.

• **Greater accessibility & flexibility**  
  The advanced registration and scheduling system allows you to efficiently manage your testing center hours and staff resources while providing candidates with scheduling flexibility.

• **Highly secure test environments**  
  Pearson VUE’s advanced security measures mean you don’t have to worry that the right candidate takes the test, and all candidates test in a controlled and secure environment.

• **Quicker turnaround time for results**  
  Most candidates who take a computer-based exam receive their results instantly, allowing them to make immediate plans regarding the next stage of their education or career.

• **Better customer service for test takers**  
  Pearson VUE’s ability to offer 24/7 online scheduling and dedicated call center support reduces the number of test-taker issues or concerns.

• **Provide access to success**  
  Your test center has even greater potential to help those in your community. Providing exams for CompTIA, Cisco, Oracle, HP, VMware and other leading IT programs can provide students with access to certifications that directly map to career success.

Activation was really easy and straightforward... I knew what I needed to do every step of the way.

Pearson VUE support: Lessen your worry – increase your value.
Pearson VUE provides exceptional customer service. The friendly and knowledgeable Pearson VUE Support Services (VSS) team is available 24/7 to help guide you through any issues that may arise. In addition, you will also have the ability to report and check the status of site incidents, schedules and history via our VSS website.

Pearson VUE technology.
The Pearson VUE system utilizes the speed, reliability and cost-effectiveness of the Internet to register candidates, download exams and transmit results with a press of a button.

There is no charge for Pearson VUE testing software or upgrades. There is a fee of $450 to purchase the Enhanced Security Protocol kit which includes digital cameras, signature pad and other security-related equipment and information. You may purchase this kit from Pearson VUE or through another vendor according to the exact specifications provided.

What are the criteria to become a Pearson VUE® Authorized Test Center?

• Any distraction-free location such as a testing lab or classroom, equipped with computers and access to the Internet.
• A certified Test Administrator (TA) to proctor the tests – this person does not need to be a dedicated resource and can get certified by completing an online test.

The 5 Steps to becoming a test center*

Step 1: Apply
First, assess your readiness by reviewing the Pearson VUE technical specifications and facility requirements found at www.pearsonvue.com/pvtc, and then complete the accompanying application. Attach all supporting documents including a copy of your floor plan and photographs of your center.

Step 2: Sign
Once your application is received, Pearson VUE will send you a contract and other applicable forms.

Step 3: Approval
Once approved, we will send a pre-activation kit (containing materials for your test center), and your Pearson VUE Site ID which enables access to the online Policies & Procedure Guide. You will need to provide proof that you’ve procured the Enhanced Security Protocol (ESP) kit.

Step 4: Install
Install the testing software promptly with the assistance of the Pearson VUE Support Services team.

Step 5: Train
Finally, your designated Test Administrator can review the online Policies & Procedure Guide and sit for the open-book TA certification test. Once your TA passes the test and is certified, you will be activated to start test delivery.

* This process may vary slightly.
